

Recommended insurance with optional individual subscription

Individual Accident Insurance and Medical Expense Coverage - strongly recommended

This insurance is intended to cover you if you are the victim of a physical accident during the rally, whether or not you are responsible for the accident and whether or not there is an identified third party, except in cases specifically excluded. It guarantees, in case of permanent disability or death, the payment of a capital sum (determined by you beforehand when you subscribe). **The "Medical Expenses" guarantee allows the reimbursement of medical expenses prescribed and incurred in Spain with the agreement of the rally's Medical Director before your eventual repatriation or return if these are due to an accident occurring during the rally.**

We encourage you to be aware of any coverage provided by your driver's license and **strongly recommend that you take out a specific individual accident insurance policy (with medical expenses coverage)** with an insurer of your choice, in order to complete your coverage and increase the insured capital.

If you wish, Gras Savoye has set up an insurance policy of this type as well as a "Medical Expenses" guarantee specifically for rally participants. You can get more information by clicking the link below. The subscription to this insurance policy can be done from now on with the Sport Events department of Gras Savoye (rallyraid@grassavoye.com - Tel: +33 (0)4 72 34 90 20). Gras Savoye is at your disposal for any specific request adapted to your needs. The full text of the contract can be sent to you on request from the broker.

The subscription to an individual accident insurance and to a "medical expenses" guarantee is optional but strongly recommended.
